

INTERNATIONAL CALL IC39_22

JOB TITLE

study coordinator of clinical studies – cardiology and neurology areas.

JOB DESCRIPTION

The Cardiology Research Group – RISCAT belongs to the Institut d'Investigació Sanitària Pere Virgili (IISPV) and is functionally attached to the Joan XXIII Hospital. The research group works in the field of cardiovascular disease, particularly ischemic involvement and heart failure. The objectives are to study the diagnostic and prognostic value of various biomarkers in acute coronary syndrome and heart failure and myocardial damage in Emergencies.

The neurovascular research group is part of the Stroke Unit of the neurology department of Joan XXIII Hospital. The objectives of this group are the research of diagnostic, preventive and acute measures of cerebrovascular disease specially in the acute phase to improve the outcome of stroke.
