

Application deadline: 9th feb 2024

Institute: Institut d'investigació Sanitària Pere Virgili (IISPV)

The Disease Biomarker and molecular mechanism group (DIBIOMECA) (<https://www.iispv.cat/es/grup/dibiomeca/>) at Institut d'investigació Sanitària Pere Virgili (IISPV) is looking for a highly motivated candidate to apply for motivated postdoctoral researcher (R2) to apply for a research position funded by the "Sara Borrell" Program of the Carlos III Health Institute (

<https://www.isciii.es/QueHacemos/Financiacion/solicitudes/Paginas/default.aspx>)

The group strategic lines in the oncology field are:

- 1) Investigation of the molecular mechanisms underlying the initiation and progression of urogenital tumors (prostate and bladder) by putting the focus on its microenvironment, with the goal of improving the diagnosis and treatment of patients.
- 2) Personalization of treatment in patients with prostate cancer. Our laboratory has been interested in identifying new molecular biomarkers capable of predicting the aggressivity of prostate cancer.

For this position it is:

Required:

- Hold a PhD degree in biological or biomedical sciences obtained after 1st January 2020 a (with the exceptions listed in the call),
- Publication record as first/last author in indexed international journals in the first decile/quartile.
-

Valued:

- Participation in research projects and mobility.
- Direction of graduate, master's and/or undergraduate students,
- Organizational, proactive and self-motivated attitude,
- Communication skills.

Offered:

- Full-time 3 years contract
- Remuneration: 30.000€-35.000/year (gross annual salary),
- Skilful and social colleagues, a highly stimulating and dynamic scientific environment, state-of-the-art infrastructures, challenging tasks, wide range of responsibilities and unique professional career development opportunities.

Application Procedure:

All applications must be addressed by email to matilde Rodrigues Chacón (mrch2424@gmail.com) and include:

- A complete CV,
- A motivation letter,
- Contact details for reference.

The submission deadline will end on February 9th 2024 at 12h.

Selection process:

- The group will select a candidate based on the CV, motivation letter, experience and interview.
- The selected candidate will apply for the position to Instituto de Salud Carlos III dead line before 19th March 2024.
