Latest news

- The European Commission has published [new guides](#) that provide useful information on the rights and obligations of researchers and staff members funded by the Marie Skłodowska-Curie Actions under Horizon Europe. The different packages address the following participants: 1) all MSCA fellows, 2) early-stage

researchers in Doctoral Networks, 3) early-stage and postdoctoral researchers in COFUND projects and 4) research and innovation staff members in Staff Exchanges projects.

- A new [Eurobarometer](#) on mental health has revealed that a large majority of Europeans consider mental health promotion as important as physical health promotion.

SEEKING FOR PARTNERS

In this section you will find collaboration offers or requests posted by different research groups through the Crowdhelix platform. **Before contacting them, you first need to [register your profile](#) in Crowdhelix or reach out through the project managers of your institution.**

Seeking coordinator for IHI Topic 4: Maximising the potential of synthetic data generation in healthcare applications

Topic: Health

Partner: University Medical Center Groningen (UMCG)

Seeking/Offering: Professor Peter van Ooijen from the UMCG is looking to join a consortium addressing the challenges of Synthetic Data Generation (SDG), to collaboratively engage on the recently launched IHI Call 5. The UMCG has extensive expertise needed to design a comprehensive SDG framework tailored for medical imaging and structured electronic medical records data, combining the academic excellence of the UMCG and its EU-based academic and industrial partners.

The goal is to explore the technical, ethical and legal aspects of SDG based on use cases with a variety of aims and datatypes. Ideally our expertise in SDG for medical imaging complements the expertise in a consortium focusing also on other types of data. For more information, send me a direct message or send an email to grantsupport@umcg.nl.

Deadline: 16th January 2024.

Seeking collaborators to test novel peptide hydrogels within Advanced biomaterials for the Health Care HORIZON-CL4-2024-RESILIENCE-01-36

Topic: Healthcare

Partner: Queen's University Belfast

Seeking/Offering: Dr. Garry Laverty and his team have developed a novel peptide-mimetic hydrogel that can be readily administered as a solution and responds to form a hydrogel in response to physiological enzymes. They are currently developing this as a long-acting injectable for sustained drug delivery e.g. HIV prevention combined with contraception. They wish to further explore the potential applications of this hydrogel platform within healthcare and beyond.

Deadline: 7th February 2024 (1st stage)

RESEARCH PROJECTS

FOREUM TOPIC CALL 2023

Topic: Rheumatology

Organized by: Foundation for research in rheumatology

Destination: The Foundation for Research in Rheumatology (FOREUM) recognizes the need for innovative and sustainable models of care in the field of rheumatic and musculoskeletal disorders (RMDs). This call for research proposals is focused on developing and implementing scientific research-based patient-centered and patient-driven approaches to improve the care and well-being of individuals living with RMDs. This call aims to stimulate impactful scientific research that revolutionizes the way care is delivered, ensuring that it is tailored to individual needs and supports long-term sustainability.

Budget: 600.000€/project

Duration: 3 years

Deadline: 5th November 2023 (LOI)

[More information](#)

GRANTS FOR MESOTHELIOMA RESEARCH 2023

Topic: Mesothelioma

Organized by: Mesothelioma applied research foundation

Destination: Some of the areas of interest for this 2023 call:

- Novel therapies for mesothelioma for both pleural and peritoneal, especially targeted therapies, combination immunotherapy, cellular therapy, and virotherapy.
- Health-related quality of life assessment incorporating the social determinants of health (SDOH) specific to mesothelioma patient care, side effect management, mental health care impact on patient and/or caregiver outcomes, and other related topics.
- Novel strategies for screening and early detection.
- Novel strategies for risk assessment and prognosis stratification.
- Immune mediated complications of immunotherapy in mesothelioma (monitoring, early detection, and management).
- Improving personalization of therapies (gender and racial differences, targeted therapies, and predictive biomarkers).
- Mechanisms of treatment resistance/failure.
- Mesothelioma biology and etiology (disease-defining molecular pathways, cellular biology, and/or tumor microenvironment).

Budget: 50.000\$/year

Duration: 2 years

Deadline: 10th November 2023

[More information](#)

FUNDING PROGRAM FOR GLOBAL REAL-WORLD DATA PLATFORMS 2023

Topic: Alzheimer

Organized by: Alzheimer's association

Destination: The collection of Real-World Data (RWD) is integral to the discovery, evaluation and evolution of novel avenues for the diagnosis, prevention, treatment and care of Alzheimer's and other dementia. This includes understanding the long-term effects of any new treatment approach. To support the advancement of and opportunities for RWD platforms, the Alzheimer's Association is launching a peer-reviewed funding program to augment and accelerate global initiatives aimed at developing, expanding and aligning RWD platforms' infrastructure, data and impact.

Budget: between 94.300€ - 943.000€

Duration: between 1-2 years

Deadline: Pre-submission inquiries are welcome at any time via the Pre-submission Inquiry Survey. Those who meet the program objectives will be invited to submit full applications.

ERA4HEALTH NUTRIBRAIN 2024

Topic: Brain ageing, nutrition, healthy lifestyle

Organized by: European Commission (funding organisations in Spain: ISCIII, FICYT & CSCJA)

Destination: The Partnership "Fostering a European Research Area for Health" (ERA4Health) aims at establishing a flexible and effective coordination between funding organisations in the European Research Area (ERA) for Health and Well-being. The aim of the call is to support transnational research projects that focus on the improvement of cognitive brain ageing through nutrition and other lifestyle factors. Thereby it enables scientists from different countries to build a valuable collaboration on interdisciplinary research projects based on complementarities and sharing of expertise in the field of brain ageing, its related disorders, nutrition and lifestyle factors.

Budget: pending

Duration: 3 years

Deadline: 15th January 2024 (pre-proposal)

AACR-ASTRAZENECA CAREER DEVELOPMENT AWARD FOR PHYSICIAN-SCIENTISTS, IN HONOR OF JOSÉ BASELGA

Topic: Oncology

Organized by: American Association for Cancer Research (AACR)

Destination: The intent of this program is to encourage and support early-career physician-scientists to conduct research and bolster the development of innovative targeted therapeutics. The proposed projects may be translational or clinical in nature and focused on all aspects of oncology.

Budget: 300.000\$

Duration: 3 years

Deadline: 5th December 2023 (LOI)

[More information](#)

AACR-BRISTOL MYERS SQUIBB MIDCAREER FEMALE INVESTIGATOR GRANT 2023

Topic: Immuno-oncology

Organized by: American Association for Cancer Research (AACR)

Destination: This grant represents a joint effort to encourage and support mid-career female physician-scientists and researchers to conduct immuno-oncology research and to foster their career advancement toward becoming a senior investigator. Research projects may be translational and/or clinical in nature with a focus on immuno-oncology.

Budget: 225.000\$

Duration: 3 years

Deadline: 21st November 2023

[More information](#)

SINGLE-CELL BIOLOGY DATA INSIGHTS 2023 (cycle 3)

Topic: health and disease

Organized by: Chan Zuckerberg Initiative (CZI)

Destination: The CZI seeks to support projects that will advance the fields of single-cell biology and data science. Applications are encouraged from computational experts outside the field of single-cell biology, but with expertise relevant to overcoming current bottlenecks and driving discoveries in the single-cell biology field. Projects may include: dedicated efforts to democratize access and usability of existing datasets; demonstration of utility by leveraging existing datasets to address impactful and challenging biological questions; and developing methods that enable greater biological insight and other major

challenges brought forward. Applications for two types of grants (Expanded Projects & Focused Projects) are welcome and will be reviewed independently.

Budget: up to 381.566€

Duration: 18 months

Deadline: 5th December 2023

[More information](#)

FRAXA CLINICAL TRIAL GRANTS 2023

Topic: Fragile X syndrome

Organized by: FRAXA research foundation

Destination: FRAXA 's mission is to find specific treatments and ultimately a cure for Fragile X syndrome. We aim to bring practical treatment into current medical practice as quickly as possible; we prioritize projects that have a clear practical application and the results of which will be shared in a timely fashion.

Budget: flexible, but may be subject to some negotiation

Duration: not indicated

Deadline: Permanent open call for applications

CAREER OPPORTUNITIES

AACR-QUADW FOUNDATION SARCOMA RESEARCH FELLOWSHIP 2024

Topic: Sarcoma

Organized by: American Association for Cancer Research (AACR)

Destination: AACR-QuadW Foundation Sarcoma Research Fellowship in Memory of Willie Tichenor represents a joint effort to encourage and support a postdoctoral or clinical research fellow to conduct translational or clinical sarcoma research and to establish a successful career path in this field.

Budget: 50.000\$

Duration: 1 year

Deadline: 8th November 2023

[More information](#)

DOCTORAL CLINICAL FELLOWS 2023

Topic: Interdisciplinary research (PhD)

Organized by: The Francis Crick Institute

Destination: They look for exceptional clinicians to gain a broad and deep interdisciplinary research experience. Fellows carry out exciting research projects for three years while following the Crick's [clinical PhD programme](#), which is a three-year version of their [PhD programme](#).

Budget: salary (tuition fees and research costs are also covered)

Duration: 3 years

Deadline: 15th November 2023

[More information](#)

STUDENT TRAINEESHIP AWARD

Topic: Cystic fibrosis

Organized by: Cystic fibrosis foundation

Destination: This program is intended to introduce students to cystic fibrosis research and encourage them to remain engaged in the field. Applicants must be bona fide students enrolled in a bachelor's, master's, or a doctoral program (i.e., PhD, MD, MD/PhD) and be interested in receiving additional cystic fibrosis-related research training. Each applicant must work with a faculty mentor on a research project related to CF.

Budget: up to 3.785€ to be used for stipend support and/or research costs.

Duration: up to 1 year

Deadline: 15th December 2023

[More information](#)

TRAVEL AWARD SUPPLEMENT 2023

Topic: Cystic fibrosis

Organized by: Cystic fibrosis foundation

Destination: This program is intended to support PhD students, postdoctoral fellows, and junior faculty participating in off-site training opportunities to learn new research skills and techniques to advance their research experience or to perform studies that cannot be performed at their host institution but are necessary to advance their research project.

Budget: up to 2.600€ to be used for travel expenses only.

Duration: up to 1 year

Deadline: 15th December 2023

[More information](#)

MSCA COFUND 2023

Topic: MSCA

Organized by: European Commission

Destination: MSCA COFUND co-finances new or existing doctoral programmes and postdoctoral fellowship schemes with the aim of spreading the best practices of the MSCA including international, inter-sectoral and interdisciplinary research training, as well as international and cross-sectoral mobility of researchers at all stages of their career. In practice, MSCA COFUND provides complementary funding for doctoral or postdoctoral programmes managed by entities established in EU Member States or Horizon Europe Associated Countries. Those co-funded programmes must follow MSCA's good practice in terms of international recruitment and minimum standard of employment for the recruited fellows as described in the European Charter for Researchers and Code of Conduct for the Recruitment of Researchers.

Budget: 96.569.000€ (total budget for all funded proposals)

Duration: up to 5 years

Deadline: 8th February 2024

[More information](#)

MSCA STAFF EXCHANGES 2023

Topic: MSCA

Organized by: European Commission

Destination: MSCA Staff Exchanges promote innovative international, inter-sectoral and interdisciplinary collaboration in research and innovation through exchanging staff and sharing knowledge and ideas at all stages of the innovation chain. The scheme fosters a shared culture of research and innovation that welcomes and rewards creativity and entrepreneurship and helps turn ideas into innovative products, services or processes. It is open to research, technical, administrative and managerial staff supporting R&I activities.

Budget: 78.500.000€ (total budget for all funded proposals)

Duration: 4 years (secondments between 1-12 months)

Deadline: 28th February 2024

[More information](#)

ECTRIMS-MAGNINS RESEARCH FELLOWSHIP PROGRAMME 2023

Topic: Multiple Sclerosis

Organized by: EUROPEAN COMMITTEE FOR TREATMENT AND RESEARCH IN MULTIPLE SCLEROSIS (ECTRIMS)

Destination: Two grants are offered annually to encourage the development of young researchers in the field of multiple sclerosis, with the implementation of projects in renowned institutions within the European network MAGNIMS. This programme aims to promote the expansion and transfer of knowledge on the application of magnetic resonance imaging in multiple sclerosis research and to foster the integration of young researchers into the international scientific community. Applicants should be under 40 years and affiliated to an academic department, which can guarantee a continuation of his or her research.

Budget: 55.000€

Duration: 1 year

Deadline: 1st December 2023

[More information](#)

ECTRIMS POSTDOCTORAL RESEARCH FELLOWSHIP EXCHANGE PROGRAMME 2023

Topic: Multiple Sclerosis

Organized by: EUROPEAN COMMITTEE FOR TREATMENT AND RESEARCH IN MULTIPLE SCLEROSIS (ECTRIMS)

Destination: ECTRIMS offers a research fellowship programme for young neuroscientists to facilitate their conduct of and training in basic, clinical or applied research related to multiple sclerosis (MS). The goal of the programme is to maximise the exchange of information and to help grow the pool of well-trained research scientists focused on problems in MS. The ECTRIMS Research Fellowship is a research-focused experience. Prospective fellows must identify and present a cogent basic, clinical, or applied research project to be undertaken during the fellowship period, in collaboration with the fellowship mentor at the host institution. For fellowship applicants who are European citizens, the laboratory or clinic should be located in a different European country from that of the fellow's citizenship.

Budget: 55.000€

Duration: 1 or 2 years

Deadline: 1st December 2023

[More information](#)

ECTRIMS MULTIPLE SCLEROSIS PROFESSIONAL TRAINING FELLOWSHIP PROGRAMME 2023

Topic: Multiple Sclerosis

Organized by: EUROPEAN COMMITTEE FOR TREATMENT AND RESEARCH IN MULTIPLE SCLEROSIS (ECTRIMS)

Destination: ECTRIMS offers a Allied Health Professional Fellowship Programme for nurses, psychologists, physiotherapists, and related allied health care professionals to obtain or expand their expertise in MS through practical experience and training in a mentored MS environment in Europe. Our aim is to enhance the care and support of individuals with MS by fostering improved clinical care and education and by helping to promote best practices in MS care throughout Europe. For European candidates, the training institution may be in the same city or country as the candidate's home institution; fellows wishing to train in a different city or different European country are encouraged, so long as language and any professional licensing requirements do not present barriers to a successful training period.

Budget: 55.000€

Duration: flexible durations up to 1 year

Deadline: 1st December 2023

[More information](#)

ECTRIMS MULTIPLE SCLEROSIS CLINICAL TRAINING FELLOWSHIP PROGRAMME 2023

Topic: Multiple Sclerosis

Organized by: EUROPEAN COMMITTEE FOR TREATMENT AND RESEARCH IN MULTIPLE SCLEROSIS (ECTRIMS)

Destination: ECTRIMS offers a Clinical Training Fellowship Programme for neurologists and other physicians to provide the opportunity for successful candidates to learn the latest techniques in patient management and care and to help foster their careers as MS physicians. This programme is primarily targeted at, and priority will be given to, applicants from less-developed countries where MS is a prevalent disease, to provide the opportunity for clinical training in a European setting where MS is a focus. For fellowship applicants who are European citizens, the clinic should be located in a different European country from that of the fellow's citizenship.

Budget: 4.583€/month

Duration: up to 1 year

Deadline: 1st December 2023

[More information](#)

POSTGRADUATE TEACHING VISITS TO RESOURCE POOR COUNTRIES 2023

Topic: Paediatric infectious diseases

Organized by: European Society for Paediatric Infectious Diseases (ESPID)

Destination: the aim of this scheme is to provide encouragement and support to ESPID members wishing to devote time to PID teaching and training activities in resource poor countries. For support, visits should be by ESPID members at the written invitation of the host institution. The visit should be to contribute to an established programme of post-graduate medical or scientific education related directly to paediatric infectious diseases or to which PID teaching is directly relevant and a component part.

Budget: 1.000€ (travel expenses)

Duration: not indicated

Deadline: 1st December 2023 (applications deadlines every 3 months)

[More information](#)

IBSA FELLOWSHIPS 2023

Topic: Several research fields (read below)

Organized by: IBSA Foundation for Scientific Research

Destination: With the aim of promoting and allowing young and talented researchers to do great science, IBSA Foundation for scientific research offers 6 fellowships in the following research fields:

1. Dermatology
2. Endocrinology
3. Fertility and urology
4. Orthopaedics, rheumatology and pain medicine
5. Healthy Aging and regenerative medicine

Applicants of any nationality must be under 40 years old on the deadline for the submission of proposals. They must have a degree in medicine, biology, pharmacy, biotechnology or bioengineering. Open to PhD students, PhD, Post-Doc and residents.

Budget: 32.000€

Duration: 1 year

Deadline: 31st December 2023

[More information](#)

AWARDS 

PAUL MARTINI PRIZE 2023

Topic: Clinical pharmacology

Organized by: Paul Martini Foundation

Destination: The award honours outstanding achievements in the field of clinical pharmacology. This includes the development and application of clinical-pharmacological methods for the assessment of therapeutic measures as

well as therapy studies and their socio-economic aspects. In the selection process, particular attention is paid to work that already contains results for application in humans.

Budget: 50.000€.

Deadline: 30th November 2023

[More information](#)

NEUROSCIENCE PRIZE 2023

Topic: Neuroscience

Organized by: Gruber Foundation

Destination: The Neuroscience Prize honors scientists for major discoveries that have advanced the understanding of the nervous system. It can be nominated individuals from anywhere in the world who have conducted highly distinguished research in the field of the brain, spinal cord, or peripheral nervous system.

Budget: 472.000€

Deadline: 15th December 2023

[More information](#)

GENETICS PRIZE 2023

Topic: Genetics

Organized by: Gruber Foundation

Destination: The Genetics Prize is presented to a leading scientist, or up to three, in recognition of groundbreaking contributions to any realm of genetics research. It can be nominated individuals who have made original discoveries in the fields of genetic function, regulation, transmission, or variation or in genomic organization.

Budget: 472.000€

Deadline: 15th December 2023

[More information](#)

FRIEDRICH WILHELM BESSEL RESEARCH AWARD

Topic: Research

Organized by: Alexander von Humboldt Foundation

Destination: The Alexander von Humboldt Foundation presents approximately 20 Friedrich Wilhelm Bessel Research Awards annually to internationally renowned academics from abroad in recognition of their outstanding accomplishments in research. Award winners are also invited to conduct a research project of their choice at a research institution in Germany in cooperation with specialist colleagues there. The award enables a total stay of between six months and a full year, which can be split into multiple stays.

Budget: 45.000€

Deadline: 31st December 2023

[More information](#)

TRAINING

FROM LAB TO CLINIC: TRANSLATIONAL RESEARCH FOR RARE DISEASES

Topic: Rare Diseases

Organized by: European Joint Programme on Rare Diseases; Foundation for Rare Diseases

Destination: This course aims to offer an overview of the issues, challenges, and opportunities in translating research into treatments for rare disease patients.

Date & place: The course has a duration of 5 weeks and it can be started at any time. Online.

EVENTS

HORIZON IMPLEMENTATION DAY: GRANT MANAGEMENT IN HORIZON EUROPE

Topic: Horizon Europe

Organized by: European Commission

Destination: This is the third part of the Horizon Implementation Day series. This session will give you detailed information about Grant Management in Horizon Europe.

Date & place: 24th October 2023, online.

[More information](#)

MAKING RESEARCH RESULTS WORK FOR SOCIETY

Topic: Research and innovation

Organized by: European Commission

Destination: The event is part of the awareness raising campaign on knowledge valorisation co-organised by the Commission with Member States. The campaign aims to inform the research and innovation actors about the recent Council Recommendation on the [Guiding principles for knowledge valorisation](#) and the Commission Recommendations on the [Code of practice on the management of intellectual assets](#) and the [Code of practice on standardisation](#)

Date & place: 26th October 2023. Brussels, Belgium.

[More information](#)

ERA 2024 KNOWLEDGE DAY & BROKERAGE EVENT

Topic: Horizon Europe

Organized by: [NCP_WIDERA.NET](https://ncp-widera.net)

Destination: The event is focused on the ERA 2024 call topics specified in the Horizon Europe WIDERA Work Programme for 2023-2024. In the first part of the event, participants will gain insights into the new ERA calls and topics for 2024, as outlined in the WIDERA Work Programme 2023-2024 (*Widening Participation and Strengthening the European Research Area*). The second part of the event will provide an opportunity for participants to engage in matchmaking with potential ERA Call 2024 participants and stakeholders through pre-arranged bilateral meetings.

Date & place: 9th November 2023. Brussels, Belgium.

[More information](#)

MSCA 2023 - DIVERSE RESEARCH CAREERS TO TACKLE GLOBAL CHALLENGES

Topic: MSCA

Organized by: U23

Destination: The event will gather more than 150 people, attracting the most relevant stakeholders and policymakers to reflect on “MSCA Diverse Research Careers to tackle Global Challenges”. The event will also offer enough space for interactive debates on the MSCA main features with the aim of contributing to the upcoming 2025-2027 Work Programme.

Date & place: 14th-15th November 2023. Toledo.

[More information](#)

INFO SESSION ON HORIZON RESULTS BOOSTER - STEERING RESEARCH TOWARDS A STRONG SOCIETAL IMPACT

Topic: Horizon Results Booster

Organized by: European Commission

Destination: Supported by the European Commission, Horizon Results Booster services are delivered to FP7, H2020, and HE projects at no cost. The free-of-charge services are provided by experts and cover several paths in Dissemination and Exploitation activities, notably Portfolio Dissemination and Exploitation, Business Plan Development, and Go to Market service.

Date & place: 14th November 2023. Online.
