**Asunto:** International Funding Opportunities For Biomedical Research 📧 - 4th July 2023

Fes click aquí si no pots veure aquest email.

Tuesday, 4th July 2023

### Latest news

- Next **Wednesday 5th July** the IBIMA platform BIONAND in Malaga will host the information conference on the **European Research Council (ERC)**. Several ERC national experts will present the next calls and the news of the ERC WP 2024. Those interested in attending the conference, in person or online, must register using the following link: [registration form](#).
- Last 29th June 2023, the Commission adopted a report to the Council and the European Parliament taking stock of progress in the implementation of the [EU](#)

[strategy for international cooperation in research and innovation \(R&I\)](#), the Global Approach to R&I. The Commission committed to adopt biennial reports on the execution of the actions.

- The European project for the coordination of gender equality policies in R+D+i [GENDERACTIONSplus](#) has published three reports on gender equality policies in which the progress and challenges posed by the gender equality objectives of the European Research Area (ERA) are analyzed. One of these reports is "**Gender dimension in R+D+i projects**" and it includes the analysis of the policies to promote the gender dimension in R+D+i projects implemented by various European funding agencies. The three reports are available [here](#).

## SEEKING FOR PARTNERS

In this section you will find collaboration offers or requests posted by different research groups through the Crowdhelix platform. **Before contacting them, you first need to [register your profile](#) in Crowdhelix or reach out through the project managers of your institution.**

---

### Seeking a consortium for EIC pathfinder Personalised nutrition

**Topic:** EIC Pathfinder Challenge: Precision Nutrition

---

**Partner:** KU Leuven

---

**Seeking/Offering:** Dr. Haifeng Yuan could offer the capability of microbiome analysis and in-vitro simulation of the gastrointestinal tract's physiological, chemical and microbiological properties.

The research group website: <https://www.hofkenslab.com/>

Email contact: [haifeng.yuan@kuleuven.be](mailto:haifeng.yuan@kuleuven.be)

---

**Deadline:** 18th October 2023.

## Seeking to join a consortium for the HORIZON-JU-GH-EDCTP3-2023-02-02 call as a partner

**Topic:** Advancing point-of-care diagnostics to the market

---

**Partner:** Bar-Ilan University

---

**Seeking/Offering:** Our lab specializes in rapid and highly sensitive detection of biomarkers, including antibodies, proteins, and specific nucleic acid sequences (e.g., RNA or DNA sequences). We have developed a magnetic modulation biosensing technology that sophisticatedly combines fluorescent and magnetic tagging of target molecules. By concentrating the magnetic beads to the laser beam and manipulating them from side to side, we increase the concentration of the fluorescently labeled target molecules and separate them from the constant background noise. We have demonstrated the analytical and clinical performance of the technology for rapid and highly sensitive serological assays (West Nile, Dengue, Zika, SARS-CoV-2), molecular assays (SARS-CoV-2), and other pathogens.

We have extensive experience in in vitro diagnostic technologies and detection of biomarkers in various fields and specifically for point of care applications. We currently have collaborations with the Israeli Central Virology Laboratory and several hospitals in Israel. For collaboration and more information, please contact us at [natalia.gordon@biu.ac.il](mailto:natalia.gordon@biu.ac.il).

---

**Deadline:** 28th September 2023 (Stage 1).

---

**RESEARCH PROJECTS** 

**ALK POSITIVE/LCRF LUNG CANCER RESEARCH AWARD ON  
INNOVATIVE THERAPEUTIC STRATEGIES TO TREAT ALK POSITIVE  
LUNG CANCERS 2023**

---

## Topic: ALK positive Lung Cancers

---

**Organized by:** Lung Cancer Research Foundation (LCRF)

---

**Destination:** LCRF provides funding for innovative projects related to ALK-driven lung cancers. The proposal must be associated with a clinical trial and should investigate novel new treatment approaches (i.e. next generation drugs or agents with novel mechanisms of action) and/or novel combinations. Investigators must be affiliated with a non-profit academic or research institution.

---

**Budget:** up to 2.000.000\$

---

**Duration:** 3 years.

---

**Deadline:** 27th July 2023.

---

[More information](#)

---

## Brian D. Novis Research Award. Junior & Senior Grants 2023

**Topic:** Myeloma

---

**Organized by:** International Myeloma Foundation

---

**Destination:** These awards go to researchers doing work in the field of multiple myeloma and related disorders including smoldering myeloma, MGUS (monoclonal gammopathy of undetermined significance) as well as immunoglobulin derived amyloidosis.

For the **Junior Award**, the candidate must have completed postdoctoral studies or clinical fellowships and must be able to devote a minimum of 50% of his/her time to the research project during the Award year. The **Senior Award** is targeted to established investigators with a track record in myeloma or related disorders.

---

**Budget:** 50.000\$ for the Junior Grant and 80.000\$ for the Senior Grant

---

**Duration:** 1 year

---

**Deadline:** 28th August 2023.

---

[More information](#)

---

## RESEARCH GRANTS IN OPEN COMPETITION 2023 (round 3)

**Topic:** Dermatology

---

**Organized by:** LEO FOUNDATION

---

**Destination:** Applications for research projects that improve the understanding of the underlying medicinal, biological, chemical, or pharmacological mechanisms of dermatological diseases and their symptoms. also welcome applications for projects that address clinical issues among people who are at risk of developing, or have developed, a skin disease, including how it impacts their quality of life and the societal costs involved.

---

**Budget:** between 268.407€ and 536.814€

---

**Duration:** Between 1 - 3 years.

---

**Deadline:** 31st August 2023.

---

[More information](#)

---

---

## RESEARCH GRANT MFG 2024

**Topic:** Glycoconjugates

---

**Organized by:** MIZUTANI FOUNDATION FOR GLYCOSCIENCE (MFG)

---

**Destination:** The Foundation provides research grants to outstanding proposals for basic and applied studies on glycoconjugate in the fields of organic chemistry, biochemistry, biophysics, molecular biology, cellular biology and medical sciences. The applicant must have a doctor's degree or its equivalent in a field relevant to the proposed project and have a documented capability of performing independent studies.

---

**Budget:** 52.000\$/project

---

**Duration:** 1 year.

---

**Deadline:** 31st August 2023.

---

[More information](#)

---

## PARP-INHIBITOR COMBINATION TREATMENTS IN PROSTATE CANCER, A GLOBAL PERSPECTIVE 2023

**Topic:** Prostate Cancer

---

**Organized by:** PFIZER S.A.

---

**Destination:** Projects that will be considered for Pfizer support will focus on:

- Increasing the understanding of the mechanism of action, biological and clinical rationale for PARPinhibitor combinations as potential treatments for prostate cancer.
  - PARP-inhibitor combinations with androgen receptor targeted therapies.
  - The evolving paradigm of the potential treatment of mCRPC with future PARP-inhibitor
-

combinations.

- Optimal therapy management for PARP-inhibitor combinations in prostate cancer.

---

**Budget:** 200.000\$/project

---

**Duration:** 1 year.

---

**Deadline:** 10th August 2023.

---

[More information](#)

---

## GRANT FOR RESEARCH INTO GENETIC INTELLECTUAL DISABILITIES 2023

**Topic:** Down Syndrome

---

**Organized by:** FONDATION JÉRÔME LEJEUNE

---

**Destination:** Calls to support fundamental, translational and clinical research projects that will strengthen the understanding, deepen the knowledge and/or will explore new therapeutic approaches for Down syndrome and other genetic diseases with intellectual disability. There are two types of funding schemes:

- **Pilot or exploratory grants:** for early stage research projects built on preliminary data or small projects that complement larger primary projects.
- **Advanced grants:** for larger breakthrough projects with substantial preliminary data.

---

**Budget:** for Pilot or exploratory grants: 50.000€/year; for Advanced grants 80.000€/year

---

**Duration:** up to 2 years.

---

**Deadline:** 13th August 2023

---

[More information](#)

---

## AACR-DEBBIE'S DREAM FOUNDATION INNOVATION AND DISCOVERY GRANTS 2023

**Topic:** Gastric Cancer

---

**Organized by:** AMERICAN ASSOCIATION FOR CANCER RESEARCH (AACR).

---

**Destination:** This grant seeks to encourage innovation and translation of ideas from basic research into new treatment options for gastric cancer. Applications are invited from researchers currently in the field as well as investigators with experience in other areas of cancer or biomedical research.

---

**Budget:** 50.000\$/year

---

**Duration:** 1 year.

---

**Deadline:** 17th August 2023.

---

[More information](#)

---

## EFSD AND LILLY EUROPEAN DIABETES RESEARCH PROGRAMME 2023

---

**Topic: Diabetes**

---

**Organized by:** EUROPEAN FOUNDATION FOR THE STUDY OF DIABETES (EFSD)

---

**Destination:** The EFSD/Lilly Programme aims to promote increased European diabetes research and to raise public awareness and political understanding of the magnitude and burden of the disease. To achieve the goals and objectives of this Programme, EFSD and Lilly will accept applications within any area of basic or clinical diabetes research.

---

**Budget:** up to 250.000€.

---

**Duration:** 1 year.

---

**Deadline:** 1st September 2023.

---

[More information](#)

---

## GLOBAL GRANTS FOR GUT HEALTH

**Topic: Small intestine microbiome**

---

**Organized by:** NATURE PUBLISHING GROUP

---

**Destination:** The focus should be on uncovering and understanding how the microbiota exerts an influence on human health. The fund is open to eligible researchers from across the world.

---

**Budget:** up to 100.000\$

---

**Duration:** 1 year.

---

---

**Deadline:** 14th September 2023.

---

[More information](#)

## CAREER OPPORTUNITIES

### ARI CLINICAL RESEARCH FELLOWSHIPS 2023

**Topic:** Orthopedic surgery and traumatology

---

**Organized by:** AO Foundation

---

**Destination:** Fellowships program addressed to Medical Doctors with minimum orthopedic training or a dental diploma and Current member of AO Trauma or AO CMF. This fellowship program provides surgeons with training and experience in all phases of clinical. The selected fellow spends three months at the Clinical Evidence, AO Innovation Translation Center (AO ITC) office in Dübendorf, Switzerland

---

**Budget:** travel and accommodation costs

---

**Duration:** 3 months

---

**Deadline:** for AO Trauma 28th August 2023; for AO CMF 4th September 2023.

---

---

[More information](#)

---

## Conference Travel Grants 2023

**Topic:** Travel grants

---

**Organized by:** The Company of Biologists

---

**Destination:** These grants are aimed at early-career researchers wanting to attend scientific meetings, conferences, workshops and training courses relating to the areas of research covered by the journal Diseases Models & Mechanisms. Applicants will usually be PhD students and post-doctoral researchers at the beginning of their research careers, using the funding to support their travel.

---

**Budget:** up to 600£

---

**Duration:** -

---

**Deadline:** 1st September 2023.

---

[More information](#)

---

---

## CRI IRVINGTON POSTDOCTORAL FELLOWSHIPS 2023

**Topic:** Cancer immunology

---

**Organized by:** Cancer Research Institute (CRI)

---

**Destination:** The CRI Irvington Postdoctoral Fellowship Program supports qualified young scientists at leading universities and research centers around the world who wish to receive training in fundamental immunology or cancer immunology. A panel of scientists drawn from our Scientific Advisory Council rigorously evaluates each candidate, the intended sponsor and training environment, and the nature and feasibility of the proposed project. CRI seeks hypothesis-driven, mechanistic studies in both immunology and tumor immunology. The applicant and sponsor should make every effort to demonstrate the potential of the proposed studies to directly impact our understanding of the immune system's role in cancer.

---

**Budget:** up to 59.000\$/year

---

**Duration:** 3 years.

---

**Deadline:** 1st September 2023.

---

[More information](#)

## INTERNATIONAL CONFERENCE TRAVEL FUND 2023

**Topic:** Neuroendocrinology

---

**Organized by:** BRITISH SOCIETY FOR NEUROENDOCRINOLOGY

---

**Destination:** To support attendance at international conferences and meetings, including those held in the UK. Awards are to support registration, travel and accommodation (not subsistence) and receipts for these costs are required upon return

---

**Budget:** up to 700£.

---

**Duration:** registration, travel and accommodation costs

---

**Deadline:** 1st September 2023.

---

[More information](#)

---

## POSTDOCTORAL FELLOWSHIP JAPAN - STANDARD PROGRAM 2024

**Topic:** Natural sciences

---

**Organized by:** JAPAN SOCIETY FOR THE PROMOTION OF SCIENCE (JSPS)

---

**Destination:** These fellowships provides opportunities for excellent postdoctoral researchers from other countries to conduct cooperative research under the guidance of their hosts with leading research groups in universities and other Japanese institutions. All fields of the humanities, social sciences and natural sciences are included under this program.

---

**Budget:** 362.000¥ per month + 200.000¥ (miscellaneous costs)

---

**Duration:** Between 1-2 years

---

**Deadline:** 1st September 2023.

---

[More information](#)

---

## INVITATIONAL FELLOWSHIPS FOR RESEARCH IN JAPAN - LONG TERM AND SHORT TERM PROGRAMS 2024

**Topic:** Natural sciences

---

**Organized by:** JAPAN SOCIETY FOR THE PROMOTION OF SCIENCE (JSPS)

---

**Destination:** These programs are intended to help advance the overseas researchers' research activities while promoting science and internationalization in Japan. There are two fellowship categories:

- Long-term: Provides opportunities for overseas researchers with excellent records of research achievements to conduct collaborative research with Japanese colleagues through long-term visits.
- Short-term: Provides opportunities for overseas researchers with excellent records of research achievements to visit Japan short-term for discussions, opinion exchanges, lectures, and other activities.

---

**Budget:** For long-term fellowships: 387.600¥ per month + 150.000¥ (research support allowance); for short-term fellowships: 18.000¥ per day + 150.000¥ (research support allowance)

---

**Duration:** for long-term fellowships: between 2-10 months; for short-term fellowships: up to 60 days.

---

**Deadline:** 1st September 2023.

[More information](#)

---

## FOREUM INTERNATIONAL FELLOWSHIPS 2023

**Topic:** Rheumatic and musculoskeletal diseases (RMD)

---

**Organized by:** FOUNDATION FOR RESEARCH IN RHEUMATOLOGY

---

---

**Destination:** These fellowships are intended to fund excellent research projects in the field of RMDs that address any basic, translational or clinical aspects of these conditions.

The call stimulates applicants conducting a research project in the field of RMDs in a host centre of choice for a period of 12 months. During this time the fellow will be mentored and trained in specific techniques, models or patient data by the team of the host centre that is required to successfully conduct the project.

---

**Budget:** 50.000€.

---

**Duration:** 1 year.

---

**Deadline:** 3rd September 2023.

[More information](#)

---

## TRAINING FELLOWSHIPS

**Topic:** Virology

---

**Organized by:** EUROPEAN SOCIETY FOR CLINICAL VIROLOGY

---

**Destination:** Fellowships to enable researchers to visit Centers for Clinical or Diagnostic Virology in Europe, in order to learn special or new techniques that are of value for their future clinical or laboratory work.

---

**Budget:** up to 5.000€.

---

**Duration:** up to 1 year.

---

**Deadline:** 1st December 2023.

[More information](#)

# AWARDS

## WILEY PRIZE IN BIOMEDICAL SCIENCES 2023

**Topic:** Biomedical Sciences

---

**Organized by:** THE WILEY FOUNDATION

---

**Destination:** The Wiley Prize in Biomedical Sciences recognizes and fosters ongoing excellence in scientific achievement and discovery. It seeks to honor research that is distinguished by its excellence, originality and impact on our understanding of biological systems and processes.

---

**Budget:** 50.000\$

---

**Duration:** -

---

**Deadline:** 31st August 2023.

---

[More information](#)

---

## THE BRAIN PRIZE 2023

**Topic:** Neuroscience

---

---

**Organized by:** THE LUNDBECK FOUNDATION

---

**Destination:** The Brain Prize may be awarded to one or more scientists who have distinguished themselves through outstanding contributions to any field of neuroscience, from basic to clinical.

---

**Budget:** not indicated

---

**Deadline:** 1st September 2023

---

[More information](#)

---

## AACR-CRI Lloyd J. Old AWARD IN CANCER IMMUNOLOGY

**Topic:** Cancer immunology

---

**Organized by:** AMERICAN ASSOCIATION FOR CANCER RESEARCH (AACR)

---

**Destination:** The AACR-Cancer Research Institute Lloyd J. Old Award in Cancer Immunology recognizes an active scientist whose outstanding and innovative research has had a major impact on the cancer field and has the potential to stimulate new directions in cancer immunology. All areas of cancer immunology will be considered for this award.

---

**Budget:** not indicated

---

**Deadline:** 15th September 2023

---

---

[More information](#)

## TRAINING

### RESEARCH DATA MANAGEMENT AND DATA MANAGEMENT PLANS (training for researchers)

**Topic:** Research data and DMP

---

**Organized by:** Biblioteca Nacional de Ciencias de la Salud, ISCIII.

---

**Destination:** This course will allow participants to know the main aspects in the management and administration of research data within the context of open science, as well as the tasks, skills and knowledge that researchers have to perform to acquire: learn basic concepts about open access and its implications in scientific publications, research data types and formats, FAIR data and open data, what a data management plan is and how to develop it as well as the tools available for it, etc. The price of the course is 70€.

---

**Date & Place:** Deadline to register: **10th July 2023**

The course will take place from 6th to 20th September 2023, online.

---

[More information](#)

---

---

## RESEARCH DATA MANAGEMENT AND DATA MANAGEMENT PLANS (training for project managers)

**Topic:** Research data and DMP

---

## CROWDHELIX OPEN INNOVATION PLATFORM

**Topic:** Crowdhelix

---

**Organized by:** Crowdhelix

---

**Destination:** This open webinar, which will take place on the 25th of July from 11 am CEST, is an introduction to the Crowdhelix platform and its matchmaking capabilities for international funding opportunities, with a special focus on the Research Management Helix and its capabilities. The purpose of this webinar is to showcase the platform's capabilities, how to profile yourself, engage with other users and benefit from the platform's matchmaking capabilities for participating in funding opportunities from international programs like HorizonEurope.

---

---

**Date & Place:** 25th July 2023, online

---

## ERC STARTING GRANT 2024

**Topic:** ERC Starting Grants

---

**Organized by:** FECYT

---

**Destination:** FECYT is hosting a series of webinars to support the preparation of proposals for the ERC Starting Grants 2024.

- Session 1 (6th July): Basic concepts and parts B1b and B1c.
  - Session 2 (13th July): Abstract, parts B1a and B2, budget and collaborators, third parties.
  - Session 3 (Date to be determined): Tips and success stories.
- 

**Date & Place:** Online

- Session 1: 6th July, 2023 (11:00h - 13:00h)
  - Session 2: 13th July 2023 (11:00h - 13:00h)
  - Session 3: Date to be determined
-

## OTHERS

### ACQUIRED APLASTIC ANEMIA: EDUCATIONAL PROGRAMS 2023

**Topic:** Acquired aplastic anemia

---

**Organized by:** PFIZER

---

**Destination:** This competitive grant program has two main objectives. Firstly, to increase the knowledge of hematologists, who are not experts in the field of acquired aplastic anemia, in the diagnosis and management of this rare disease, which affects 2-6 new patients per million population annually. Secondly, to increase the knowledge of primary care physicians about this disease to help determine the clinical signs and laboratory parameters that should influence the decision to refer the patient to an expert center for definitive diagnosis and treatment. Individual projects requesting up to 50.000\$ will be considered.

---

**Deadline:** 1st August 2023

---

[Registration](#)

### SMALL MEETING GRANTS 2023

**Topic:** Endocrinology

---

**Organized by:** European Society of Endocrinology (ESE)

---

**Destination:** Small Meeting Grants are available to support the organisation of an endocrine related meeting, such as a symposium, workshop, conference or training course, which has been endorsed by the Society. Applications for the Small Meeting Grant and ESE Endorsement can be made at the same time. The maximum value of each grant is 2.500€. The objective is to further support the development of endocrine education in Europe, which is a priority strategic objective of ESE

---

**Deadline:** 1st September 2023

---

[Registration](#)

---

## POSTGRADUATE TEACHING VISITS TO RESOURCE POOR COUNTRIES 2023

**Topic:** Paediatric Infectious Diseases (PID)

---

**Organized by:** European Society for Paediatric Infectious Diseases (ESPID)

---

**Destination:** The aim of this scheme is to provide encouragement and support to ESPID members wishing to devote time to PID teaching and training activities in resource poor countries. For support, visits should be by ESPID members at the written invitation of the host institution. Support is offered for transport costs only (1.000€). The visit should be to contribute to an established programme of post-graduate medical or scientific education related directly to paediatric infectious diseases or to which PID teaching is directly relevant and a component part.

---

**Deadline:** 1st September 2023

---
