Latest news

- **European Call for Proposals for Funding Projects in The Field of Health Systems Transformation – THCs:** Horizon Europe's new THCS (Transforming Health Care Systems) partnership, which aims to ensure the transition towards more sustainable, resilient, innovative, high quality and people-centred health and care systems, is launching its first transnational call entitled "Healthcare of the Future". Projects must be carried out by transnational consortia consisting of a minimum of three entities from three different countries among the participants. This call is co-funded by the

European Commission and different national or regional funding agencies. In the case of Spain, the Instituto de Salud Carlos III participate as funding bodies. Each of these entities establishes its own funding requirements, which must be known before submitting the proposal.

SEEKING FOR PARTNERS

In this section you will find collaboration offers or requests posted by different research groups through the Crowdhelix platform. **Before contacting them, you first need to [register your profile](#) in Crowdhelix or reach out through the project managers of your institution.**

Seeking consortium for 'Addressing poorly-understood tumour-host interactions to enhance immune [...] call

Topic: Health, Cancer.

Partner: University of Twente.

Seeking/Offering: looking for a partner/work package leader who can combine and analyse data from research and clinical studies, databases, patient cohorts, biobanks, and other available recourses and employ artificial intelligence to identify attributes of patients who respond or resist a given therapy, and can generate algorithms to predict the future outcome of a patient. In parallel, we are seeking a data manager for the whole project.

Deadline: 12th April 2023.

Looking for a partner able to provide primary foetal cells

Topic: endocrinology.

Partner: Zaz Ventures.

Seeking/Offering: We are preparing a proposal to develop new methods to evaluate the toxicity of endocrinal disruptors.

We are looking for a European partner able to provide primary foetal cells to the consortium. We are primarily looking for adipocyte cells, but are not close to other primary foetal cell types.

The partner needs to have the ethical agreement in place to start directly at the start of the project, if approved.

Cells will firstly be used for R&D purposes, but the partner might be willing to investigate (ethically-wise) how the commercial exploitation is possible with the supplied cells.

Deadline: 13th April 2023.

RESEARCH PROJECTS

Ben Barres Early Career Acceleration Award 2023

Topic: Neuroscience.

Organized by: Chan Zuckerberg Initiative.

Destination: Grants aimed at researchers belonging to non-profit institutions, who have been in their first independent position for a minimum of two years and a maximum of six years, for the funding of fundamental biological research projects in the field of neurodegeneration.

Budget: \$300.000/year.

Duration: four years.

Deadline: 20th April 2023.

[More information](#)

EFSD/Novo Nordisk Foundation Precision Diabetes Medicine Award Programme 2023

Topic: Diabetes.

Organized by: European Foundation for The Study of Diabetes.

Destination: Grants aimed at members of the EFSD for the funding of three innovative projects, with a clear translational focus, related to the diagnosis, treatment or prevention of diabetes.

Budget: €67.000 o €268.000/ grant.

Deadline: 15th May 2023.

[More information](#)

Nutrition Research Grants 2023

Topic: Nutrition.

Organized by: Nestlé Foundation.

Destination: Call for the funding of basic and applied research projects related to nutrition in low- and middle-income countries. Although the call is primarily aimed at projects submitted by researchers from these countries, special emphasis will be given to proposals submitted jointly between these countries and developed countries.

Budget: up to \$300.000.

Duration: between one and three years.

Deadline: 10th May 2023.

[More information](#)

Research Grants 2023

Topic: Fibrosis.

Organized by: Cystic Fibrosis Foundation.

Destination: Call for the funding of basic research projects on the aetiology and pathogenesis of Cystic Fibrosis, with the aim of improving the understanding of this disease, led by independent researchers of any nationality. Proposals submitted must be based on sufficient hypotheses and preliminary data to justify funding.

Budget: \$150.000/year.

Duration: maximum two years.

Deadline: 11th May 2023.

[More information](#)

Pilot Project Grant Application 2023

Topic: Health.

Organized by: The Myositis Association.

Destination: Call for early-stage funding for innovative projects in the field of myositis, with the aim of obtaining the data necessary to obtain funding for future larger calls.

Budget: up to \$100.000/year.

Duration: two years.

Deadline: 15th May 2023.

[More information](#)

Accelerating Drug Discovery for Frontotemporal Degeneration 2023

Topic: Neuroscience.

Organized by: Alzheimer's Drugs Discovery Foundation.

Destination: Call for innovative projects that translate new advances in the pathological mechanisms underlying frontotemporal degeneration (FTD) into new drugs for the treatment of this disease. Projects may be carried out in research centres or biotechnology companies in any country.

Budget: between \$150,000 and \$200,000.

Duration: one year.

Deadline: 19th May 2023.

[More information](#)

Spain - France Joint Call in Eureka 2023

Topic: Innovation.

Organized by: CDTI - Centre for Technological Development and Innovation.

Destination: Call for proposals to finance technological cooperation projects aimed at the development of innovative products, processes and/or services, in any thematic area, carried out by consortia made up of at least one Spanish and one French company. Universities, hospitals and other research centres may participate as subcontractors.

Budget: the CDTI will finance up to 85% of the approved budget for Spanish companies.

Duration: maximum three years.

Deadline: 31st May 2023.

Crohn's & Colitis Foundation of America Grants

Topic: Inflammatory Bowel Disease.

Organized by: Crohn's & Colitis Foundation of America.

Destination: Grants to fund innovative projects related to Inflammatory Bowel Disease, taking place anywhere in the world:

- **Senior Research Awards:** Aimed at independent researchers for the funding of early stage projects with the objective of generating the necessary data for participation in future larger funding calls.
- **Litwin IBD Pioneers:** For early-stage projects that open up new avenues for diagnosis, treatment and prevention of the Inflammatory Bowel Disease.
- **Clinical Research Investigator-Initiated Awards:** For projects that address relevant clinical questions, directly involving IBD patients or the analysis of large existing patient databases. There are two different modalities: Senior Research Award (projects led by a senior PI and which must include a junior researcher as Co-PI) and Career Development Award (projects led by a junior PI).

Budget:

- **Senior Research Awards:** \$130.000/year.
- **Litwin IBD Pioneers:** up to \$130.000/year.
- **Clinical Research Investigator-Initiated Awards:** no limitations are established.

Duration:

- **Senior Research Awards:** between one and three years.
- **Litwin IBD Pioneers:** maximum two years.
- **Clinical Research Investigator-Initiated Awards:** maximum three years.

Deadline: 5th May 2023.

Alzheimer's Drugs Discovery Foundation Grants

Topic: Neuroscience.

Organized by: Alzheimer's Drugs Discovery Foundation.

Destination: Grants for the financing of research projects on Alzheimer's disease and related dementias, carried out by basic or clinical researchers linked to universities, university medical centres or biotechnology companies:

- **Drug Development Program:** For Investigational New Drug (IND) projects and early phase clinical trials testing promising pharmacological interventions and devices for this disease.
- **Neuroimaging and CSF Biomarker Program:** For projects related to the development of biomarkers for which there is a clear clinical need.

Budget:

- **Drug Development Program:** up to \$5.000.000.
- **Neuroimaging and CSF Biomarker Program:** up to \$600.000.

Duration:

- **Drug Development Program:** one year.
- **Neuroimaging and CSF Biomarker Program:** one year.

Deadline: 19th May 2023.

[More information](#)

Michael J. Fox Foundation for Parkinson's Research

Topic: Neuroscience.

Organized by: Michael J. Fox Foundation.

Destination: Calls for applications for grants to fund projects in pre-clinical and clinical phases, giving priority to those aimed at the identification and development of new therapies or treatments for motor

and non-motor symptoms of Parkinson's disease. Applications may be submitted by for-profit or not-for-profit organizations from any country:

- **Pre-Clinical Therapeutics Pipeline Program:** For the funding of pre-clinical projects.
- **Clinical Therapeutics Pipeline Program :** For the financing of projects in the clinical phase.

Budget:

- **Pre-Clinical Therapeutics Pipeline Program:** between \$250,000 and \$2,000,000/project.
- **Clinical Therapeutics Pipeline Program:** between \$250,000 and \$2,000,000/project.

Duration:

- **Pre-Clinical Therapeutics Pipeline Program:** maximum 2 years.
- **Clinical Therapeutics Pipeline Program:** maximum three years.

Deadline: 25th May 2023.

[More information](#)

American Association for Cancer Research Grants

Topic: Cancer.

Organized by: American Association for Cancer Research.

Destination: Grants for the funding of research projects in the field of tumour treatment (TTField):

- **AACR-Novocure Career Development Award for Cancer Research:** Aimed at young researchers with a PhD degree obtained within the last eleven years.
 - **AACR-Novocure Cancer Research Grant:** Aimed at doctors with research independence.
-
-

Budget:

- **AACR-Novocure Career Development Award for Cancer Research:** \$300.000.
- **AACR-Novocure Cancer Research Grant:** \$350.000.

Duration:

- **AACR-Novocure Career Development Award for Cancer Research:** three years.
- **AACR-Novocure Cancer Research Grant:** three years.

Deadline: 30th May 2023.

CAREER OPPORTUNITIES

Short-Term Fellowship Grants

Topic: endocrinology.

Organized by: European Society of Endocrinology.

Destination: Grants aimed at members of the ESE, who are in pre-doctoral training or within ten years of obtaining their doctoral degree, for short stays in endocrinology-related research centres in a country other than the candidate's own.

Budget: up to €2.500.

Duration: between one week and three months.

Deadline: 31st May 2023.

[More information](#)

Long-Term and Cross-Disciplinary Postdoctoral Fellowships Award

Topic: Human Resources.

Organized by: Human Frontiers in Science Program Organization.

Destination: Post-doctoral training grants to carry out a novel, interdisciplinary research project in a country other than the researcher's country of origin. A distinction is made between the following types of fellowships: Long-Term Fellowships (for PhDs in life sciences) and Cross-Disciplinary Fellowships (for PhDs from non-life science areas who wish to carry out a project in the area of life sciences).

Budget: according to host country.

Duration: three years.

Deadline: 11th May 2023.

[More information](#)

First Contact Initiative Grant

Topic: Cardiology.

Organized by: European Society of Cardiology.

Destination: Five fellowships, aimed at researchers aged 40 or younger and linked to a European institution involved in cardiovascular sciences, for stays in centres of excellence in Europe or abroad.

Budget: €2.500/grant.

Duration: minimum ten days.

Deadline: 25th May 2023.

[More information](#)

Research Fellowship Awards

Topic: Inflammatory Bowel Disease.

Organized by: Crohn's & Colitis Foundation of America.

Destination: Inflammatory Bowel Disease research projects will be funded with the aim of helping researchers from non-profit institutions around the world to prepare for an independent basic and/or translational research career in the field of Crohn's disease and ulcerative colitis research.

Budget: \$70.000/year.

Duration: three years.

Deadline: 5th May 2023.

[More information](#)

Pivot Fellowship Request for Applications

Topic: Human Resources.

Organized by: Simons Foundation.

Destination: Support for researchers with a doctoral degree or equivalent in the natural sciences, among other fields, who are professors at an academic institution or in an equivalent position, for their development in a discipline other than their current field under the supervision of a mentor.

Budget: fellow's salary + supplement of \$10,000 + \$50,000 to the tutor for research funds.

Duration: one year.

Deadline: 15th May 2023.

[More information](#)

Mentored Research Fellowship

Topic: Human Resources.

Organized by: The Myositis Association.

Destination: A grant to cover the salary of a medical specialist or junior post-doctoral researcher during the conduct of a research project on myositis or related fields, with the aim of establishing themselves as independent researchers, to be carried out under the supervision of a mentor.

Budget: \$50,000/year.

Duration: two years.

Deadline: 15th May 2023.

[More information](#)

Endocrine Nurse Grant

Topic: Endocrinology.

Organized by: Society for Endocrinology.

Destination: Grants, aimed at nursing professionals who are members of the Society for Endocrinology, to carry out small-scale projects, or to obtain preliminary data for larger projects, focused on improving clinical nursing practice in the field of endocrinology.

Budget: up to £5.000.

Deadline: 17th May 2023.

[More
information](#)

CRIS-Princess Margaret Cancer Centre Drug Development Fellowship Program

Topic: Cancer.

Organized by: CRIS Foundation for Research to Overcome Cancer.

Destination: Scholarships aimed at certified medical oncologists or physicians who have completed the residency programme in internal medicine and are eligible, from Spain, France or the United Kingdom, for two years of training in the Phase I Clinical Trial Program, in Toronto.

Budget: \$95.000 Canadian/year.

Deadline: 30th May 2023.

[More
information](#)

AWARDS

EDCTP Prizes

Topic: Health.

Organized by: European Commission.

Destination: Four international prizes will be awarded to recognize outstanding achievements of researchers and research teams, especially from sub-Saharan Africa and Europe.

Budget: €50.000/prize.

Deadline: 31st May 2023.

[More information](#)

Swiss Bridge Award

Topic: Cancer.

Organized by: Swiss Bridge.

Destination: Awards are aimed at researchers with a doctoral or specialist degree, under 45 years of age, from academic and oncology research institutions in Europe, working on projects focusing on resistance to cancer therapy.

Budget: 500.000 CHF.

Deadline: 30th April 2023.

[More information](#)

Annemarie Opprecht Award 2023

Topic: Parkinson.

Organized by: Annemarie Opprecht Foundation.

Destination: Awards are aimed at researchers or research teams from all over the world with medical research work in the field of Parkinson's disease.

Budget: 100,000 CHF.

Deadline: 30th April 2023.

[More information](#)

OTHERS

Meeting Support Grant

Topic: Endocrinology.

Organized by: Society for Endocrinology.

Destination: Grants to enable members of the Society of Endocrinology to organize events, conferences and/or meetings related to endocrinology. Events may be large or small and may have a clinical, scientific or nursing focus.

Budget: up to £10,000.

Deadline: 17th May 2023.

[More information](#)

Scientific Meeting Grants

Topic: Mobility grant.

Organized by: The Company of Biologists.

Destination: Aimed at groups wishing to organize some kind of face-to-face or online event (meetings, workshops or conferences) on an area of research related to one of The Company of Biologists journals (Development, Cell Biology, Experimental Biology, Disease Models and Mechanisms and Open Biology).

Budget: £400- £6,000 depending on the characteristics of the event.

Deadline: 20th May 2023.

[More information](#)

TRAINING

EIT Health Matchmaking

Topic: EIT Health call.

Organized by: EIT Health.

Destination: Launch day of this year's EIT Health call, EIT Health's Business Plan 2023, where attendees will receive key information about the call. In addition, there will be the opportunity to organize individual meetings to discuss possible project proposals and establish collaborations.

Date & place: 9 and 10 May 2023. Online and in person (Vienna).

[Registration](#)

Information Sessions and Supporting Documents Call for Postdoctoral Projects MSCA PF 2023

Topic: MSCA PF 2023.

Organized by: FECyT y Fundación Madri+d.

Destination: The Call for Postdoctoral Projects (MSCA PF 2023), which will open on 12 April, is open to researchers of any nationality with a maximum of 8 years of research experience who wish to acquire new skills through advanced training and international, interdisciplinary and intersectorial mobility. In order to encourage participation in these calls, a series of dissemination and promotion activities have been organized for research staff and supervisory/management staff in charge of supporting applications in Spanish institutions:

Date & place:

- National online briefing on general aspects. 25th April 2023.
- National online briefing on shipping and budgetary aspects. 9th May 2023.
- National online briefing on practicalities. May 22nd, 2023.
