

## PhD Candidate Recruitment (INIM Group, IISPV-URV-CIBERINFEC)

### ***Our group***

The Infection and Immunity Research Group (INIM) is a dynamic and multidisciplinary research group focused on epidemiological, clinical and molecular characteristics of infectious diseases. The INIM group is a consolidated research group (2021SGR01404) led by Dr. Anna Rull (Biochemist) and Dr. Joaquim Peraire (Infectious disease doctor) that belongs to IISPV-URV. Our group is located at the Hospital University Joan XXIII (Tarragona), and it is part of the CIBERINFEC network of excellence (CB21/13/00020).

**@inim\_group**

### ***What we offer***

The opportunity to gain knowledge and experience in the study of molecular mechanisms related to infectious diseases, including the study of HIV/AIDS and COVID-19 (priority lines), but also nosocomial infections. The candidate will acquire experience in clinical and translational research.

### ***Requirements***

- ✓ Master's degree in biological sciences, biochemistry, or biotechnology.
- ✓ Strong motivation to pursue a scientific career
- ✓ Knowledge of bioinformatics and statistics
- ✓ Excellent English skills
- ✓ **Citizen of the European Union (FI-STEP Call Requirement)**
