

Latest news:

- **EC presents proposal for next Framework Programme.** On 16 July, the European Commission presented its proposal for the next Research and Innovation Framework Programme **HORIZON EUROPE 2028-2034** as part of the next Multiannual Financial Framework. Horizon Europe (2028-2034) will build on the achievements of its predecessors, scaling what works, simplifying what is possible, and focusing investment where Europe needs it most. It will be tightly connected to the European Competitiveness Fund. The Commission is proposing to double the budget of the Framework Programme to €175 billion.

## SEEKING FOR PARTNERS - CANDIDATES

In this section you will find collaboration offers or requests posted by different research groups through the Crowdhelix platform. **Before contacting them, you first need to [register your profile](#) in Crowdhelix or reach out through the project managers of your institution.**

### Seeking international collaborators and consortia - HORIZON-HLTH-2025-01-TOOL-03

**Topic:** Health

---

**Host Organization:** University of Padua

---

**Seeking/Offering:** The Dep. of Surgery, Oncology and Gastroenterology of UNIPD seeks to join projects leveraging multimodal data for GenAI in biomedical research. Our multidisciplinary team (70+ professors and researchers) offers extensive clinical datasets and expertise integrating imaging, genomic and clinical data. We can provide experience in AI-driven analytics for cancer diagnostics, prediction models and

treatment response assessment to develop innovative GenAI applications for precision medicine approaches. s an example, we are currently working on developing AI tools based on integrated clinical and biologic data to inform the timing of re-biopsy in patients with advanced disease (based on the probability of switch in tumor phenotype), or to inform directed surveillance strategies based on the predicted pattern of relapse.

## RESEARCH PROJECTS

### PRPH2 and Associated Retinal Diseases (PARD) Science Award

**Topic:** Retinal Diseases

---

**Organized by:** Fighting Blindness Foundation

---

**Destination:** The Foundation Fighting Blindness supports research that contributes to preventions and interventions of inherited retinal diseases (IRDs) and atrophic (dry) age-related macular degeneration (AMD).

---

**Budget:** Up to 500.000\$.

---

**Duration:** 1-3 years, starting on April 1, 2026.

---

**Deadline:** Thursday, 28 august 2025

---

[More information](#)

---

### Research Grants

**Topic:** Dermatology

---

**Organized by:** Leo Foundation

---

**Destination:**

- **Research Grants** Research projects that improve the understanding of skin biology, as well as the underlying medicinal, biological, chemical, or pharmacological mechanisms of dermatological diseases and their symptoms.
  - **Serendipity Grants** For existing LEO Foundation-funded research projects.
- 

**Budget:**

- **Research Grants:** 1 to 3 years. Between 2M-4M DKK (approx. €268.008-€536.016).
  - **Serendipity Grants:** Up to 2 years. Up to 4M DKK (approx. €536.000).
- 

**Deadline:** Thursday, 11 september 2025

---

## Grants

**Topic:** Health

---

**Organized by:** Allen Foundation

---

**Destination:**

Funds projects that primarily benefit programs for human nutrition in the areas of health, education, training, and research.

- The foundation welcomes proposals that develop and advance:
  - The inclusion of mandatory courses in nutrition in medical schools
  - Bringing the promise of nutrigenomics or nutritional genomics to realization
  - The promotion of environmentally sound, economically viable, socially responsive, and sustainable food and agricultural systems
- 

**Duration and Budget:** Variable depending on the type of the project.

---

**Deadline:** Thursday, 15 january 2026

---

## CAREER OPPORTUNITIES

### Research Fellowships for All (AARFA)

#### Topic: Mobility

**Organized by:** Alzheimer's Association (ALZ)

**Destination:** Supports early career development of promising researchers working to advance the understanding, diagnosis, and treatment of Alzheimer's and all other dementias. This program aims to facilitate the transition of early career investigators toward becoming independent researchers, equipped to lead their own innovative studies in the field of Alzheimer's and related dementias.

#### Budget and Duration:

- Up to 3 years (minimum 2).
- Up to 200.000\$ per award:
  - A total of 180.000\$ (including direct and indirect costs) for costs related to the proposed research (up to 70.000\$ per year) in direct and indirect costs of up to 10%.
  - A total of 12.500\$ for travel to scientific and professional meetings and additional support for travel expenses necessary to carry out research planned (up to 7.000\$ per year).
  - The remaining funds are two 10.000\$ research stipends (one stipend to the applicant and one to the primary mentor), which are not guaranteed and are awarded only upon successful completion of the award and accomplishing the Fellowship Benchmarks.

**Deadline:** Thursday, 04 september 2025 (LOI)

## Postdoctoral Research Training Fellowship Programme

**Topic:** Mobility

---

**Organized by:** ECTRIMS

---

**Destination:** Offers training for young neuroscientists to facilitate their conduct of and training in basic, clinical or applied research on the topic of multiple sclerosis and related diseases.

---

**Budget and Duration:**

- One or two years. Fellowships of a shorter duration than one year may be considered under special circumstances, which must be detailed in the application process. Annual stipend of 55.000€. The fellowship must be initiated within six months of the receipt of an award letter or within six months of the completion of the doctoral degree for fellows who apply while still pursuing their doctoral degree.

---

**Deadline:** Monday, 01 december 2025

---

---

## Allied Health Professional Training Fellowship Programme

**Topic:** Mobility

---

**Organized by:** ECTRIMS

---

**Destination:** Offers nurses, psychologists, physiotherapists, and related allied health care professionals the chance to obtain or expand their expertise in MS and related

diseases through practical experience and training in a mentored MS environment in Europe.

---

**Budget:** Annual stipend of 55.000€ (includes salary plus any benefits).

---

**Duration:** Up to 1 year. Training preferably should be planned to begin within six months of the award notification.

---

**Deadline:** Monday, 01 december 2025

---

## AWARDS

### Carl Camras Translational Research Awards

**Topic:** Glaucoma

---

**Organized by:** ARVO

---

**Destination:** This award for young investigators working in areas of translational research honors Dr. Carl Camras, who is highly respected for his work as a glaucoma specialist and a research scientist. He is most widely recognized for developing prostaglandin analogues for the treatment of elevated IOP in patients with glaucoma. During his distinguished career, he took a personal interest in developing the next generation of eye and vision researchers.

---

**Budget:** An award of \$12,000 will be presented

---

**Deadline:** October 1, 2025

---

## Lupus Insight Prize

**Topic:** Lupus

---

**Organized by:** Lupus Research Alliance

---

**Destination:** The primary objective of the Lupus Insight Prize is to identify and recognize an outstanding investigator with a documented record of creativity and innovation who has made a novel research discovery in scientific domains relevant to lupus. The Prize is not a lifetime achievement award. Rather, the Lupus Insight Prize is given for a specific, significant, and recent (within the past five years) discovery relevant to lupus. In addition to recognizing a specific insight or discovery, the Prize also aims to direct the talents of the Prize recipient toward further high impact research achievement and testing of the insight in lupus. This should shift the current paradigms and significantly advance the understanding or treatment of lupus. Secondary objectives of the Prize are to: (1) raise the visibility of lupus as a significant medical condition among the general public and (2) demonstrate the determination of the LRA to surmount the challenges of this complex and debilitating disease through the support of research.

---

**Budget:** \$100,000

---

**Deadline:** December 1, 2025

---

## EVENTS

### IHI Brokerage Event 2025

**Topic:** IHI funding opportunities

---

**Organized by:** IHI

---

**Destination:** The aim of the event is to provide people interested in IHI's next single-stage call for proposals with the opportunity to network face-to-face and start forming consortia. There will also be pitching sessions and poster sessions to give research organisations, patient groups and companies the chance to showcase their capabilities. We are also planning an online networking platform to provide additional opportunities for applicants to share ideas and network both before and after the event.

---

**Date & place:** Brussels, Belgium on 4-5 November 2025.

## RITC2026 Information Day

**Topic:** Test and Demonstration of Multimodal Data Approaches for Personalised Medicine (MultiPMDData2026)

---

**Organized by:** EP PerMed

---

**Destination:** The RITC2026 aims to bring together enterprises with clinical actors, including healthcare providers, patients, and researchers, to test innovative solutions in controlled real-world settings to address clear needs in managing multimorbidity. EP PerMed will fund innovation projects in human health that focus on multimodal data usage for PM approaches providing more efficient and personalised management of multimorbid patients, having at least two chronic diseases that require management.

---

**Date & place:** October 28, 2025 Online

# TRAINING

## Save the date! X Seminario de Clúster 1 y 2 – Oficina Europea

**Topic:** Health

---

**Organized by:** European Office FECYT

---

**Destination:** This meeting is aimed at European project managers from Spanish public and private entities and will focus in particular on an in-depth analysis of the Impact section of the Cluster 1 and 2 proposals for the Horizon Europe programme. In the case of Cluster 1, the seminar will focus on managers from the National Health System, in particular Health Research Institutes. The event will have a limited capacity of 40 participants, with the aim of promoting high-quality, personalised and practical training.

## Proposer's Day Webinar FY26 Funding Opportunities

**Topic:** Retinal degenerative (IRD) diseases

---

**Organized by:** Foundation Fighting Blindness

---

**Destination:** The Foundation Fighting Blindness has released its Fiscal Year 2026 Request for Applications, featuring several exciting funding opportunities aimed at accelerating research and development for inherited retinal degenerative (IRD) diseases and dry age-related macular degeneration (dAMD).

---

**Date & place:** September 4th, 2025

---
