Latest news:

- **New European Partnership on One Health AMR: €253 million for research and innovation against antimicrobial resistance.** AMR causes over 35,000 deaths annually in the EU and 1.27 million worldwide (2019), with projections of up to 10 million per year by 2050. It occurs when microbes like bacteria or viruses become resistant to treatments, driven by antimicrobial misuse, poor infection control, and limited diagnostics. AMR is a threat to modern medicine that strains health systems as well as economies. .

SEEKING FOR PARTNERS - CANDIDATES

In this section you will find collaboration offers or requests posted by different research groups through the Crowdhelix platform. **Before contacting them, you first need to [register your profile](#) in Crowdhelix or reach out through the project managers of your institution.**

Looking to join a consortium for HORIZON-HLTH-2026-01-DISEASE-11 call

Topic: Health, Vascular

Host Organization: Bar-Ilan University

Seeking/Offering: Dr. Gonen's lab is expert in mammalian sex determination, using the mouse as a model system. They have developed a system where upon minor genetic perturbations, they have four models of mice that enable to distinguish the effect of sex chromosomes (XY/XX) from gonadal sex hormones (Testosterone, Estrogen). They have normal XY males and normal XX females but also XY females (sex reverse) and XX males (sex reverse). By breeding these four types of mice into a

mutation that causes heart problem they can explore if the sex difference stem from a sex chromosome difference or hormonal effect. Their new model is superior to the original four core genotyping (FCG) model that is heavily used to study sex differences and sexual dimorphism..

RESEARCH PROJECTS

Hoffman Clinical Trial Awards Program

Topic: ALS

Organized by: ALS Association

Destination: Supports early to mid-stage biomarker-driven clinical trials of novel or repurposed therapeutics for ALS (either disease-modifying or symptomatic) or of imaging tracers.

Budget: Up to 1M\$.

Duration: 2 or 3 years.

Deadline: Tuesday, 28 october 2025

[More information](#)

Translational Grant Program

Topic: Health

Organized by: Emily's Entourage's (EE)

Destination: Funds promising strategies that accelerate research and drug development for those in the final 10% of the CF community who do not benefit from CFTR modulators, including those with rare and nonsense mutations.

Budget: 100.000\$ per annum (direct costs).Additional indirect costs set at 10%.

Duration: 2 years.

Deadline: Friday, 31 october 2025

[More information](#)

Mission: Adaptation to Climate Change

Topic: Clima

Organized by: European Commission

Destination: The Mission is the perfect vehicle to support climate adaptation at the regional and local levels and to develop and facilitate the take-up of ready-to-use knowledge and tools for climate action with the aim to accelerate the transformation to a climate-resilient Europe.

Budget: The overall indicative budget is: 113,65M€ for 2025.

Deadline: Wednesday, 29 october 2025

Innovation and Collaboration Program

Topic: Cancer

Organized by: Lustgarten Foundation

Destination: Funds highly innovative research in the field of pancreatic cancer.

Budget: Up to \$110.000 (including indirect costs).

Duration: Up to 1 year.

Deadline: Monday, 05 january 2026

[More information](#)

CAREER OPPORTUNITIES

Neuroscience Training Grants

Topic: Mobility

Organized by: International Brain Research Organization (IBRO)

Destination: Provides equitable access to high-quality neuroscience education and practical training opportunities by supporting fellows with funding to attend neuroscience training courses.

Budget: Up to 4.500\$

Duration: Between 1 January and 30 June 2026

Deadline: Saturday, 15 november 2025

International Fellowships for Research in Japan

Topic: Mobility

Organized by: Japan Society for the Promotion of Science (JSPS)

Destination: Offers fellowship programs for overseas researchers who have an excellent record of research achievements to conduct collaborative research and opinion exchanges with researchers in Japan.

Budget: 100.000\$ per year.

Duration and budget:

Postdoctoral Fellowships for Research in Japan (for young researchers)

- **Standard Program [P]:** Duration and funding: 12 to 24 months, 362.000¥ (approx. 2.215€) per month.
- **Short-Term Program [PE]:** Duration and funding: 1 to 12 months, 362.000¥ (approx. 2.215€) per month for PhD holders and 200.000¥ (approx. 1.220€) per month for non-PhD holders at the time research starts in Japan.

Invitational Fellowships for Research in Japan (for mid-career and senior researchers)

- **Long-Term Program [L]:** Duration and funding: 2 to 10 months, 387.600¥ per month (approx. 2.300€).
- **Short-Term Program [S]:** Duration and funding: 14 to 60 days, 18.000¥ per day (approx. 110€).

Deadline:

- Call 2026 II - Postdoctoral Fellowship (Standard) [P]: Tuesday, 28 april 2026
 - Call 2026 II - Invitational Fellowship (Short-term) [S]: Tuesday, 28 april 2026
 - Call 2026 II - Postdoctoral Fellowship (Short-term) [PE]: Friday, 09 january 2026

AWARDS

Nature Awards Healthspan Accelerator

Topic: Health

Organized by: Nature Awards

Destination: Four carefully chosen applicants will each be awarded a \$10,000 Nature Award and gain entry to our residential accelerator programme. Here, you'll engage with eminent scientist–entrepreneurs and explore opportunities for commercial development, all aimed at advancing your cutting-edge science into viable health innovations. We are especially interested in passionate scientists early in their career leading the work alongside a seasoned PI.

Budget: \$10,000

Deadline: 10th December 2025

[More information](#)

Women Who Conquer Cancer Mentorship Awards

Topic: Neuroscience

Organized by: Conquer Cancer

Destination: Login with ASCO Women Who Conquer Cancer Mentorship Awards
The Women Who Conquer Cancer (WWCC) Mentorship Awards recognize extraordinary women leaders in oncology and role models who have excelled as a mentor and have demonstrated outstanding commitment to the professional development of colleagues as clinicians, educators, and researchers in oncology.

Budget: \$5,000 honorarium

Deadline: 12th December, 2025

EVENTS

Advancing cancer care: personalised treatment and innovation

Transforming lives through research, innovation and equitable access

Topic: The research and innovation community platform

Organized by: European Commission

Destination: The programme will highlight cutting-edge cancer diagnostics and treatments, concrete clinical results, as well as discuss how to effectively integrate these innovations into healthcare systems across Europe, ensuring equitable access for all citizens.

Date & place: 4th December 2025 09:00 (GMT+01:00)

Format Hybrid Connect

Horizon Europe info days - EU Missions

Topic: EU Missions Concrete solutions for our greatest challenges

Organized by: European Commission

Destination: Join us online and learn more about the new 2026 topics in the Missions' part of the main Work Programme 2026/2027 under Horizon Europe for each Mission: Adaptation to Climate Change Mission Cancer Mission 100 Climate-Neutral and Smart cities by 2030 Mission Restore our Ocean and Waters by 2030 Mission

Date & place: 20th January 2026–21st January 2026 09:00 (GMT+01:00)

Format: Online

TRAINING

EP PerMed Training in Data Management in Personalised Medicine

Topic: Personalised Medicine

Organized by: European Partnership for Personalised Medicine

Destination: EP PerMed is organising a two-day, hands-on training course on research data management (RDM), which will take place on 5 and 6 February 2026 in Paris, France. Interested candidates need to apply by providing details of their PM-related experience, achievements and publications, as well as their motivation.

Date & place: 5-6th February 2026

[Registration](#)

EP PerMed Hackathon – the Use of non-invasive Biomarkers within Personalised Medicine Approaches

Topic: Personalised Medicine

Organized by: European Partnership for Personalised Medicine

Destination: The first EP PerMed Hackthon will take place from 3 to 4 March 2026 in Oostende, Belgium. This immersive event is designed to drive innovation and collaboration in personalised medicine.

Date & place: 3-4th March 2026
